

“Explaining the Jubilee Cycle Using Pictures”

The Concept of Counting Time

Time has always been counted using circles. Just look at your wall clock and wrist watch.

The 61st minute of the day is also the 1st minute of the next hour, the next hour Cycle. The 121st minute of the day is also the 1st minute of the next hour, the next endless Cycle of hours. The number of minutes counted does not stop, break, skip, or damage the endless Pattern of counting hours.

Count years, or count days, or count seconds, it is always the same concept. If you are counting to 1000 days, or to 1000 years, it is still the same concept. The count-value keeps increasing numerically, but the Pattern or Cycle never changes or skips.

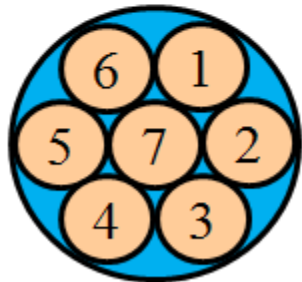

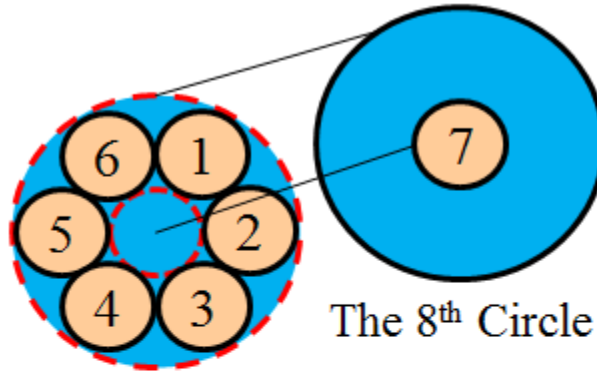

The Concept of Counting To 50 Years

The 50th year is the process of counting off numerical values, incrementally, until you reach 50. The count-value is an increasing number, but the count-value has nothing to do with the Pattern behind it. Just like with counting minutes to the next hour, the repeating Cycle keeps going, uninterrupted. It is a Cycle, it does not stop or skip.

Likewise, the Pattern of Sabbatical 7-year Cycles never changes, stops, or skips. A historian can count off a sequence of 50 years, but can start in the middle of a Jubilee Cycle. The count-value has one purpose, and the Pattern or Cycle has another purpose. Counting incremental numerical values towards 50 does not change the Pattern of the Cycle of 7's. They are two different “things”.

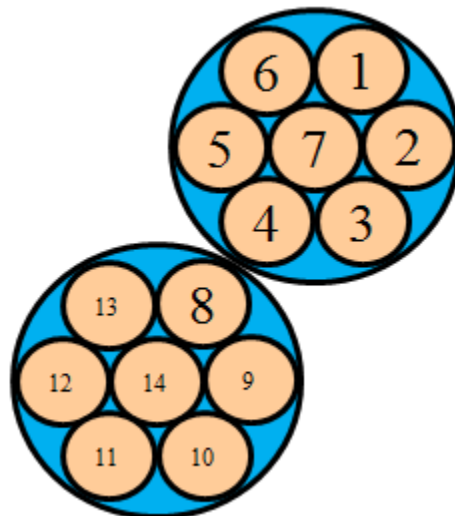

Time is Counted Using Circles

A week is a Pattern of 7 days. Each day, 24 hours, is shown as a simple Circle, hung on the wall as a (military) clock. A Sabbatical-Cycle is also a Pattern, but of 7 years instead of days. It is the same concept. Each year can also be shown as a simple Circle. Thus, 7 years can be seen as 7 Circles, and shown as a Circle of Circles.

Wraps The 7 Circles

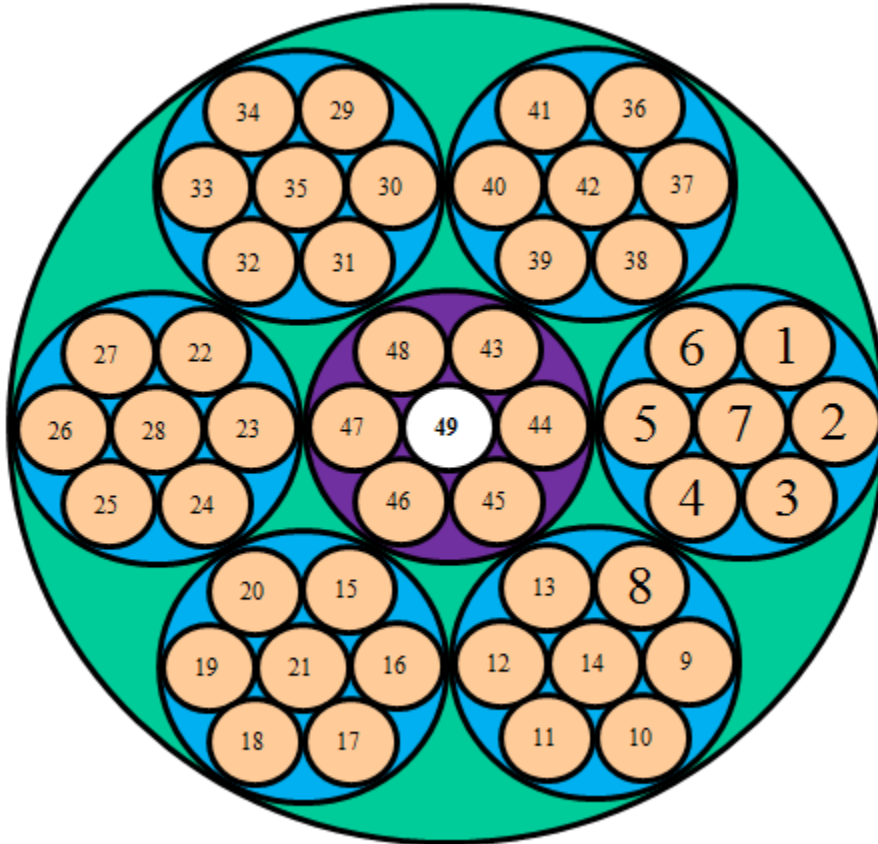

An implied larger (outer) Circle wraps around, encloses, the inner 7 Circles

Two 7 Year Cycles, 14 years, shown as Circles within Circles

The 8th Circle continues the counting-value towards 1000 years, but notice that it is also the 1st Circle in the next Cycle of 7 Circles. Thus, the 8th Circle is BOTH. The 8th Circle is both the 8th and the 1st at the same time. The Cycles of 7 years each cannot be changed or skipped, because, they are Cycles. But the counting of years may continue past 7, and past 8.

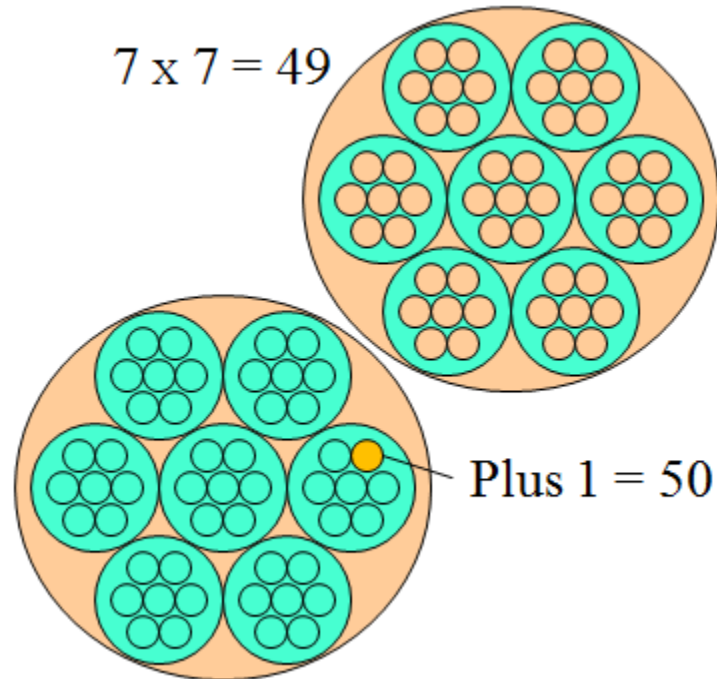

Continuing the counting value to 49, which is 7 Sabbatical Year Cycles, can be shown as 49 Circles, and shown as Circles within Circles. One Jubilee Cycle is the repeating and endless Pattern of 49 years, each.

Seven Sabbatical Years, shown as 49 Circles, shown as Circles within Circles
Thus, 49 years is 7 Sabbaticals, which completes one larger (outer) Circle-Pattern

Counting the 50th Circle

Likewise, the 50th Circle (50th year) starts another similar Pattern of another 49 inner Circles. The 50th year starts another Jubilee Cycle of another 7 Sabbatical Year Cycles. The 50th year is the numerical value counting, and could be counting towards ever higher values (50, 51, 52, etc.), but, it is also the 1st Circle in the next Pattern of 7 Sabbatical Years, the 1st Circle into the next 49 years.

The 50th Year, is the 1st year of the next similar Pattern of 49 years

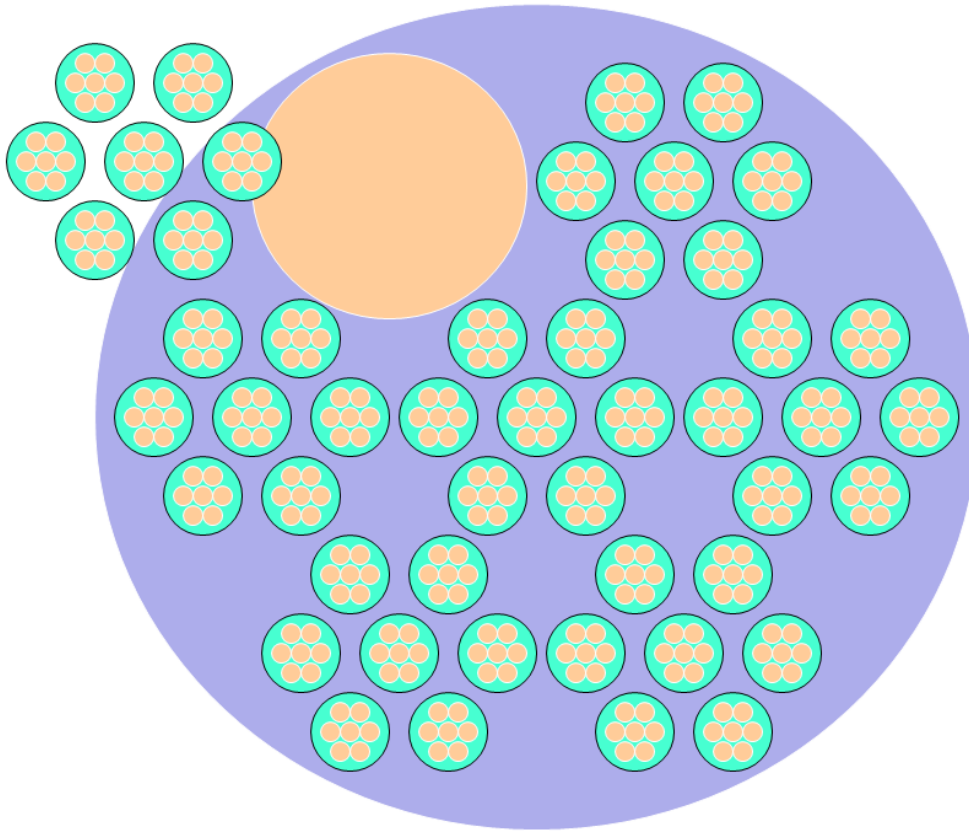

The 50th year is the incremental counting upwards towards a higher number. The task of counting to “50” is a different paradigm (concept) than it is to count through the 7 year Cycles. Cycle-Patterns do not change when the counting goes to the next Cycle. Thus, the 50th Circle is BOTH. The 50th Circle is both the 50th and the 1st at the same time.

Leviticus 25:10 is in reference to counting numerically, towards a higher numeric value, up to 50. The counting towards the number 50 has nothing to do with stopping, breaking, skipping, or damaging the never ending Pattern of counting 7 Year Cycles.

Thus, the Jubilee Cycle is exactly seven Sabbatical Years, which is 49 years. The Jubilee Year is always the first year of each Jubilee Cycle.

Counting to the 344th Year

The counting value can continue to ever larger numerical values. The next larger (outer) Pattern is 343 Years.

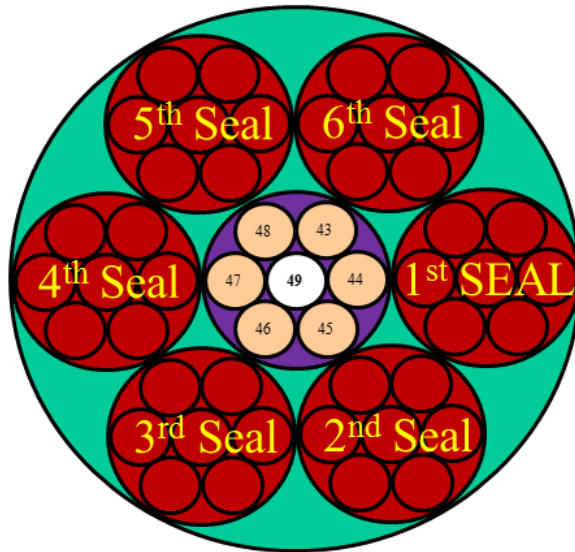

Pattern of 343 Circles within Circles, (7 times 7 times 7)

The next higher numerical-counting-value, the next year-count, the 344th year in counting, then starts another even larger (outer) Pattern. That same year, the 344th year, also starts another Jubilee Cycle (of 49 years), and it also starts another Sabbatical Year Cycle (of 7 years), all being “true” at the same time.

Historical Sources

All of this information is corroborated in the “Book of Divisions”, found in the Coptic Bible, and the other historical references given in the Book “120 Jubilees”, <http://www.120jubilees.com>, and “The Seventh Circle in Bible Prophecy”, <http://www.yhwhis1.com/Articles/7THCIRCL.pdf>. There are also Dead Sea Scroll fragments showing table-graphs of these same sequences.
